NYPD COMMISSIONER'S INTRODUCTION

This volume, prepared under the authority of the Police Commissioner and the Office of Special Records, constitutes the first complete Reverse Directory of the City of New York to be issued for departmental use. Unlike the ordinary public directory — which lists names alphabetically for the convenience of trade and household — this edition proceeds block by block, identifying every residence, shop, office, warehouse, and known occupant on the island of Manhattan. It is, in effect, a street-by-street portrait of the City, rendered in detail not available to the general public.

In these pages an officer may turn to any block and know at once who lives above the bakery, who runs the back-room printing press beside the alley, which tenement houses three families under a single line on the tax roll, and which storefront that appears vacant by day serves other purposes after midnight. It is a map of the living city — the honest and the crooked alike — recorded as they stand.

This book is classified confidential. It is intended solely for the use of detectives and sworn personnel conducting official business. No copy shall leave the possession of the officer to whom it is issued. Loss or disclosure to civilians, newspapermen, ward heelers, or persons of questionable standing will be regarded as grave misconduct and disciplined accordingly.

The city is crowded, restless, and forever changing. New addresses appear as old ones burn down or get painted over. Such changes shall be reported through regular channels for amendment in future printings. Accuracy is the strength of this volume — help us keep it so.

You are entrusted with a powerful instrument. Use it with care, consult it with purpose, and remember always that this work represents the combined labor of patrolmen on midnight beats, clerks bent over ledgers in unheated back offices, and detectives who know a block not by its facade, but by the footsteps that pass there after dark.

USING THE REVERSE DIRECTORY

This directory is a listing of all people and places organized by spatial location, with an entry for each numbered block in a neighborhood. See the accompanying map atlas for block numbers.

If you want to find out which people and companies are located near each other, you can find that information here.

You can also use this directory to identify an apartment resident's next-door neighbors.

ADDITIONAL DETAILS

Each apartment building entry has its own lead which corresponds to the doorman or maintenance worker for the building.

You will also find an entry for each block that corresponds to the special "canvas" action which can be performed around the block.

HOW WELL DO YOU KNOW YOUR CITY?

Bloomingdale began as a Dutch "vale of flowers" stretching over half the West Side. The name comes from Bloemendaal, a village near Haarlem in the Netherlands - literally "vale of flowers" or "blooming valley."

HOW WELL DO YOU KNOW YOUR CITY?

The Bowery's name literally means "the farms". It comes from the Dutch word "bouwerij," meaning farm or farmland. The road ran from the old Dutch town up to the outlying farmsteads, so people simply called it "the farm road" - and the name stuck.

HOW WELL DO YOU KNOW YOUR CITY?

Bustling Lower Broadway once began as an Indian footpath. Long before it was lined with skyscrapers, it was the Wickquasgeck trail of the Lenape, later widened by the Dutch into their main "Heeren Straat" or Gentlemen's Street.

HOW WELL DO YOU KNOW YOUR CITY?

Harlem is named after a Dutch city. The settlement was founded in the 1600s as Nieuw Haarlem, after Haarlem in the Netherlands; the Dutch name likely combines words for height and silt, referring to its slightly elevated, riverbank setting back in Europe.

HOW WELL DO YOU KNOW YOUR CITY?

The Carnegie Mansion neighborhood takes its name from Andrew Carnegie, who built a grand house at Fifth Avenue and 91st Street in 1901.

HOW WELL DO YOU KNOW YOUR CITY?

In 1857, city planners held an international design competition for a massive public park in the heart of Manhattan. The winning plan was the Greensward Plan, created by Frederick Law Olmsted and Calvert Vaux. At the time of its construction, most of the land north of 59th Street was still rocky farmland and open countryside, though the free Black settlement of Seneca Village, along with German and Irish immigrant homes, was displaced for the park's construction.

HOW WELL DO YOU KNOW YOUR CITY?

Chelsea is named after a British veterans' home. In 1750, Captain Thomas Clarke bought farmland north of 14th Street and named his estate "Chelsea" after the Royal Hospital Chelsea in London, a home for retired soldiers. The estate name transferred to the whole neighborhood.

HOW WELL DO YOU KNOW YOUR CITY?

In the years after the Gold Rush and the railroads, Chinese immigrants drifted east and settled quietly along Mott, Pell, and Doyers Streets, renting rooms no one else wanted and minding their own business. The city barely noticed, which suited everyone just fine. By 1920, Chinatown has become a neighborhood apart. Shop signs hang in characters most New Yorkers can't read, basements hum late into the night, and narrow alleys twist in ways the map never quite explains.

HOW WELL DO YOU KNOW YOUR CITY?

Bustling Lower Broadway once began as an Indian footpath. Long before it was lined with skyscrapers, it was the Wickquasgeck trail of the Lenape, later widened by the Dutch into their main "Heeren Straat" or Gentlemen's Street.

HOW WELL DO YOU KNOW YOUR CITY?

The southern tip of Manhattan once held a line of artillery batteries defending New Amsterdam and later New York. The waterfront park that grew there kept the name Battery Park.

HOW WELL DO YOU KNOW YOUR CITY?

Long before apartment houses or motorcars, the northern heights of the Fort Tryon neighborhood were valued for their view of the Hudson and their distance from trouble below. During the Revolutionary era, the land was fortified and fought over, its slopes traded between armies who understood the value of elevation. Eventually the guns were replaced by estates. Wealthy owners claimed the ridge for fresh air, privacy, and the sense of being above the city rather than in it. The area remais deliberately quiet – roads winding, development restrained, and the river always in sight.

HOW WELL DO YOU KNOW YOUR CITY?

The Gashouse District earned its name honestly. The neighborhood lives under the shadow of towering gas tanks, and a metalic sharpness in the air. Streets feel temporary, as if the city never intended them to last. It's an area that city has long promissed to renovate.

HOW WELL DO YOU KNOW YOUR CITY?

Gramercy Park started life as "little crooked swamp." The area name is an anglicization of Crommessie, from Dutch Krom Moerasje or Krom Mesje – "little crooked swamp" or "little crooked knife," describing a crooked marsh and brook that once ran along today's 21st Street.

HOW WELL DO YOU KNOW YOUR CITY?

"Greenwich Village" started out as Groenwijck, Dutch for "Green District". The area was a little rural hamlet north of the main town of New Amsterdam; over time,

HOW WELL DO YOU KNOW YOUR CITY?

Hamilton Heights is literally the hill behind Alexander Hamilton's house. Around 1800, Hamilton built his country estate The Grange on a rise near today's 141st Street and Convent Avenue.

HOW WELL DO YOU KNOW YOUR CITY?

No one can quite agree how Hell's Kitchen got its name, only that it earned it early. Some say it came from the Irish gangs who ruled these blocks in the last century, others from a policeman who decided the place needed a hotter word than "rough." Whatever the truth, the name stuck, and so did the reputation. Hell's Kitchen is a neighborhood of dockworkers, longshoremen, prizefighters, and men who work nights and don't ask questions.

HOW WELL DO YOU KNOW YOUR CITY?

In the late 19th century, Manhattan pushed its railroads west to the Hudson Yards neighborhood, carving vast train yards along the Hudson River where freight could arrive, unload, and disappear into the city. Tracks multiplied, sheds rose, and entire blocks were given over to steel, steam, and schedules. Few people live here by choice. Fewer stayed long. Meat, coal, mail, and manufactured goods pass through at all hours. The work is loud, dangerous, and constant.

HOW WELL DO YOU KNOW YOUR CITY?

In Little Italy, the streets are narrow and busy, filled with cafés, signs, and crowds of passersby. But Italian Harlem offers broader avenues, quieter side streets, and a more domestic scene – families on stoops, children at play, and shopkeepers who close early for supper. While Little Italy caters as much to visitors as to residents, Italian Harlem is home to working families, laborers, tradesmen, and shopkeepers – many of whom have settled there for years and intend to stay.

HOW WELL DO YOU KNOW YOUR CITY?

Manhattan's northern tip used to be called Tubby Hook. In 1864, the district was rebranded "Inwood", replacing the old riverfront name "Tubby Hook" for the growing residential neighborhood at the island's end.

HOW WELL DO YOU KNOW YOUR CITY?

By the late 19th century, waves of immigrants were funneled into Lower East Side, packed into tenements designed for profit rather than life. Air shafts passed for ventilation. Hallways doubled as bedrooms. Labor movements, political machines, and criminal enterprises learned their trade here, shaped by overcrowding and necessity. Fires, strikes, and riots left marks the bricks never forgot. Reform came slowly, often after headlines forced it.

HOW WELL DO YOU KNOW YOUR CITY?

Lenox Hill was once a single merchant's estate. The "Lenox" comes from Robert Lenox, a Scottish-born merchant who assembled about 30 acres of farmland between today's Fifth and Park Avenues in the early 1800s. The slight rise of ground there became known as Lenox Hill.

HOW WELL DO YOU KNOW YOUR CITY?

Every year the Neapolitan residents of Little Italy celebrate the Feast of San Gennaro on Mulberry Street. What began as a modest religious procession has become louder, brighter, and harder to ignore with each passing year. Lanterns stretched overhead, bands marched for hours, and money pinned to the saint's robes told its own story.

HOW WELL DO YOU KNOW YOUR CITY?

Before guidebooks adopted it, these streets were known locally as San Juan Hill – a dense, unruly district of tenements, saloons, and rooming houses wedged between the river and the avenues. Irish, German, Black, and immigrant families packed in close, living by shift work, church schedules, and a sharp understanding of which blocks belonged to whom. The name "San Juan Hill" dates back to the turn of the century, borrowed from the Spanish-American War and applied with dark humor to a neighborhood known for frequent street fights and stubborn independence. By 1910 real-estate men preferred "Lincoln Square," a name that suggested dignity, order, and future plans.

HOW WELL DO YOU KNOW YOUR CITY?

The Lower West Side began as a shoreline, not a neighborhood. Long before names and addresses, the Hudson set the terms – deep water close to land, steady tides, and room for ships to tie up. Piers came first, then warehouses, then streets laid out to serve the docks rather than the city beyond them.

HOW WELL DO YOU KNOW YOUR CITY?

Morningside was shaped as much by geography as by intention. Steep cliffs rise abruptly from the low ground to the east, forming a natural boundary that long delayed development. By the late 1800s, the city began to tame the terrain: Streets were cut into stone, Morningside Park was carved out of the slope, and large institutions – most notably Columbia University, which arrived in 1897 – set down permanent roots.

DID YOU KNOW?

Many residents of Manhattan live in duplexes. There's no doorman for a duplex apartment but you can still use this directory to find out who lives in both units of a duplex.

HOW WELL DO YOU KNOW YOUR CITY?

Turtle Bay is named after an actual cove full of turtles. In the 1600s a small inlet of the East River between about 45th–48th Streets was known as Turtle Bay, probably for the turtles that thrived there; nearby farmland was called Turtle Bay Farm, and the name stuck to the neighborhood long after the cove was filled.

HOW WELL DO YOU KNOW YOUR CITY?

In 1876, NYPD Captain Alexander "Clubber" Williams was transferred to a lucrative mid-Manhattan vice district packed with theatres, gambling houses, and brothels. He supposedly bragged, "I've been eating chuck steak for a long time, and now I'm going to get a little of the Tenderloin." The nickname for the neighborhood stuck.

HOW WELL DO YOU KNOW YOUR CITY?

Times Square was originally named Longacre Square, after London's carriage-making area. In 1904, when The New York Times moved into a new tower there and a subway station was built, the intersection was officially renamed Times Square.

HOW WELL DO YOU KNOW YOUR CITY?

The Upper East Side presents an image of settled power. The streets are wide, orderly, and carefully watched. Change comes slowly here, negotiated in advance. Visitors are welcome, but rarely mistaken for residents.

HOW WELL DO YOU KNOW YOUR CITY?

The Upper West Side did not begin with mansions or pedigrees, but with transportation. For much of the 19th century, the land west of Central Park was considered too far, too windy, and too close to the river to matter. What changed everything was steel - first the elevated railways along Ninth and Columbus Avenues, then the subway, which made the journey downtown not just possible, but predictable.

HOW WELL DO YOU KNOW YOUR CITY?

Washington Heights takes its name from Fort Washington, a Revolutionary War fortification built on Manhattan's highest natural ground to guard the Hudson. In 1776 it fell to British and Hessian troops, forcing Washington's army to flee across the river.

HOW WELL DO YOU KNOW YOUR CITY?

Yorkville began as a little roadside village on the old Boston Post Road. The name dates to the 1830s, when a Yorkville post office and police precinct were set up there. The area sat north of a rise called York Hill, and the small village around it became Yorkville.
